**To: Resident**  
**From: Matthew Mendoza, STPUD**  
**Subject: Danube Traffic Detour**

The project happening at Tahoe Keys Boulevard (TKB) and Venice, is to replace the failing infrastructure of the wastewater pump station located on the corner. This project has already closed the northbound travel lanes of TKB, now we are approaching a piece of the work that will require all the south bound lanes to be closed.

The contractor will temporarily detour all TKB north and south bound traffic over to Danube. To facilitate the extra traffic, we will be placing no parking signs along Danube between Venice and Monterey and on Monterey from Danube to TKB. Please remove any boats, trailers or other vehicles along the curb.

City of South Lake Tahoe police department may issue parking citations during this time.

This temporary detour will be in affect 24 hours a day from August 15<sup>th</sup> to September 15<sup>th</sup> 2022.

See attached drawing.

The District apologizes for any inconvenience.

For any questions or concerns please call me at 530 543 6277
