 - Dual line service.

NOTE: The size of the fire service connection will be determined by applicant's fire protection firm and approved by SLTFD upon submittal and review of fire sprinkler calculations.

 SLTFD – Print Name and Title SLTFD Signature Date

Information provided by the District:

The static pressure of the District's water system in the general area of the Property is estimated at _____ pounds per square inch (psi) and should be field verified by the Applicant to confirm actual water system pressure.

DISCLAIMER

The above static pressure information ("Information") is based on the District's hydraulic computer model which may vary from actual water pressures in the District's water system. Further, actual water pressure may vary significantly depending on the time of day, customer utilization, water supply interruptions and operational problems. The District does not guarantee, warrant or make any representations regarding the correctness, accuracy, reliability, or completeness of the Information. The Information is provided "as is" and without any representation, warranty or covenant with respect to the quantity, pressure or duration of water flows for any purpose, whether expressed or implied. The District expressly disclaims all express and implied warranties including, but not limited to warranties of merchantability and fitness for a particular purpose. The entire risk as to use of the Information is assumed by the Applicant. The Applicant expressly disclaims, and agrees to indemnify and defend the District, from any liability, claim, loss, damage, or expense any kind or nature, including consequential and incidental damages, caused directly or indirectly by Applicant's or any other person's use of the Information, adequacy of water pressure, or interruption or loss of water service.

The undersigned applicant acknowledges receipt of the above information subject to the above referenced disclaimer and limitations.
