

ADDENDUM FOR INVITATION TO BID# 17-18-05

We sent you an Invitation to Bid for SEWERLINE SPOT REPAIR & LATERAL ABANDONMENT SERVICES. Please be advised that a **third job for CURED-IN-PLACE-PIPE (CIPP) REHABILITATION** has been added to the RFB:

Time is of the essence for the additional repair. The District would like the work completed by June 16, 2017 (assuming that the bid/s will be awarded by June 1, 2017).

Only the third job is of a high priority but the District would allow for all work* to be completed in June; or will consider other schedules including the original schedule for the other 2 job listings. If a bidder wishes to only have all 3 proposal sections considered together, they shall note so on their proposal form. Otherwise, the District may award the CIPP job to one bidder and the other 2 job sections to another bidder, or may award all 3 proposals to one bidder if deemed to be in the best interest of the District.

*Be advised that at this time only 8 repair sites are identified for the other 2 agency repair sections proposed (listings attached).

Sincerely,

South Tahoe Public Utility District

Linda Brown
Purchasing Agent

Note: Changes made in the Specifications are indicated in **bold** or ~~strike-through~~. Additional or updated forms are also attached.
